

ALQAMA QURESHI

Problem Solver, Multi Tasker

About Me

I am a versatile professional skilled in Android development, web development, and UX/UI designing. With a deep understanding of software development principles, coding languages, and design principles, I can create seamless experiences across multiple platforms and deliver engaging user interfaces. I have pursued specialized courses and certifications in Android development, web development, and UX/UI design to enhance my skills and stay up-to-date with the latest industry trends.

QUALITIES

- Problem Solver.
- Multi Tasker.
- Communication Skills.
- Attention to detail and a commitment to delivering high-quality work.

EDUCATION

Muhammad Ali Jinnah University

Bachelor of Science in Software Engineering
2021-2025

New Aligarh College

XII Pre-Engineering
2020-2021

SEMESTER PROJECTS

BIKE RENTAL MANAGEMENT SYSTEM

Feb 2022 - May 2022

In this project we work on the concept to generate the rental records and to add details and update it. Here User can Add their Bike's Information as well as Customer's. The whole project is designed in 'C++' language and different variables and strings have been used for the development of this project. It's easy to operate and understand by users.

LIBRARY MANAGEMENT SYSTEM

Sep 2022 - Dec 2022

In this project we work on library management system that libraries having large number of records and data, Student's record, books record, librarian records etc. It is very difficult to manage that huge amount of unsorted/unauthorized data and records. So the solution is to create a system in which library admin or any educational institute can manage the record of books in authorized and sorted way, and can easily search or delete or add any type of data. An efficient system should be code. And data should be authorized, easy to search, add or remove by the help of "Data structure and algorithms"(DSA), it will make it easy for library to manage huge number of records and data.

SKILLS SUMMARY

Android Development	<div><div></div></div> 80%
Web Development	<div><div></div></div> 80%
UX/UI Designing	<div><div></div></div> 100%
Java	<div><div></div></div> 100%
